Conference “Opportunities, Mobility and Well-Being”

08./09. July 2019 | Warsaw, Poland

The Institute of Economics Polish Academy of Sciences and ifo Institute are pleased to announce the conference “Opportunities, Mobility and Well-Being”.

This conference aims to improve our understanding as to how important life outcomes including income, education and health depend on factors one could classify as circumstances, socio-economic background characteristics or individual choice. Furthermore, we would like to discuss to what extent unequal opportunities and intergenerational persistence in one dimension foster unequal opportunities and immobility in other dimensions as well.

We encourage empirical and theoretical submissions from the following fields:

- intergenerational mobility
- equality of opportunity
- well-being measurement
- early childhood development
- social choice theory
- intragenerational mobility

We also welcome submissions from related strands of the abovementioned fields. Preference is given to papers over abstracts. Submissions must be done electronically via the indicated link.

There is no participation fee, however, participants are expected to cover their own travel and accommodation cost.
