## Conference “Opportunities, Mobility and Well-Being”

22./23. April 2021 | Online

The Institute of Economics Polish Academy of Sciences and ifo Institute are pleased to announce the 2<sup>nd</sup> edition of the conference “Opportunities, Mobility and Well-Being”.

This [conference](#) aims to improve our understanding how important life outcomes, such as income, education and health differ in the way they depend on factors we would classify as “circumstances” or “socio-economic background characteristics”. Furthermore, we would like to discuss recent methodological advances to account for the multidimensionality of unequal opportunities and intergenerational persistence.

We encourage empirical and theoretical submissions from the following fields:

- equality of opportunity
- well-being measurement
- intergenerational mobility
- social choice and welfare economics

We also welcome submissions from related strands of the abovementioned fields. Preference is given to papers over abstracts. Submissions must be done electronically via the indicated link.

There is no participation fee. The conference will be held online and will be open to interested researchers within the above fields.

**ifo** INSTITUTE

This workshop is funded by the Polish National Science Centre (NCN) and the German Research Foundation (DFG).
